Hi Dr. Lawrence,

I want to confirm that 12:00 noon Friday, June 2nd still works for our team. We are excited to get feedback on our progress and dive deeper into the specifics of some of your requirements.

The [https://github.com/rlawrenc/2022\\_COSC499\\_AutoER](https://github.com/rlawrenc/2022_COSC499_AutoER) repo that we are basing our project on does not have a `Dockerfile`. Do you have that dockerfile or are we responsible for creating it ourselves?

Thanks and kind regards,  
Matthew Obirek (he/him).

Hi,

I can confirm the meeting for Friday at noon. As for the Dockerfile, there is a docker-compose.yml file that you can use.
