Hi Dr. Lawrence,

I want to confirm that 12:00 noon Friday, June 2nd still works for our team. We are excited to get feedback on our progress and dive deeper into the specifics of some of your requirements.

The https://github.com/rlawrenc/2022_COSC499_AutoER repo that we are basing our project on does not have a `Dockerfile`. Do you have that dockerfile or are we responsible for creating it ourselves?

Thanks and kind regards,
Matthew Obirek (he/him).

Lawrence, Ramon <ramon.lawrence@ubc.ca>

Hi,

I can confirm the meeting for Friday at noon. As for the Dockerfile, there is a docker-compose.yml file that you can use.

Dr. Ramon Lawrence

Hey Dr Lawrence,

Thanks for confirming the meeting time. Shortly after emailing you, we figured out part of the issue we were having. We are excited for Friday!

Kind Regards,
Matthew Obriek (He/Him)

Hi,

In preparation for tomorrow's meeting, I am sending you our tentative requirements to review, as we want to make sure that we have everything you asked for included. We are confident that we included everything, but if we did not, we can add or edit the requirements tomorrow!

See you then,
Matthew Obirek (he/him)

Hi,

The document nicely summarizes the requirements.

One development note: You may be able to find an open source SQL editor/UI written for the web in JavaScript that you can adapt rather than trying to write your own.
